Dear Ms. Abelsky,

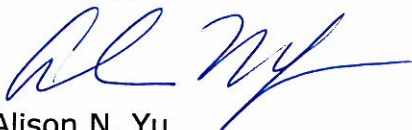

I was delighted to learn that you are applying to be a Technical Assistance (TA) services provider in the fields of Information Technology and Data Management for the New York City Department of Youth and Community Development. The William Randolph Hearst Foundations have supported the Nonprofit HelpDesk of the Jewish Community Council of Greater Coney Island since 1998, and I am pleased to recommend the work of the NonProfit HelpDesk (NPHD).

The Hearst Foundations are national philanthropic resources for charitable institutions working in the fields of Education, Health, Culture and Social Service. In 2008, the Hearst Foundations awarded a \$75,000 grant toward continued support for the NPHD. We are impressed by your enthusiastic commitment to your clients and your dedicated efforts to provide them with affordable, high quality solutions to their information technology needs.

As part of the grant, we are delighted that NPHD is providing assistance to improve computer security. NPHD's comprehensive approach to each nonprofit begins with a pre-assessment and concludes with an overall tailored strategy, and throughout the process includes consideration of the organization's staff, infrastructure, and training needs. By helping your clients combat computer security threats, NPHD helps them reduce fraud, inefficiencies, and computer-related crimes.

I believe that the Department of Youth and Community Development will be impressed by NPHD's technical assistance services, and I am happy to recommend the work of NPHD.

Sincerely,

Alison N. Yu
